

## Training activities in 2021

### 1. Virtual faculty development training:

DMP arranged virtual faculty development training from 27 April 2021 to 30 April and 3rd May 2021. To orient the faculty on the modules of 3rd and 5th semester; which includes modular description, goals, objectives, modular contents, student's activities and assessment method of the module, the new assessment system and marking grid for 1<sup>st</sup> year students following the curriculum of Bangladesh Nursing and Midwifery Council etc. including the orientation on the Psychological First AID. There were 55 Teaching staff including Course Coordinators, Instructors, Junior Instructors and Resource Faculty from seven Academic Sites of DMP participated in the training. Besides, the PowerPoint presentations, role play and group work activity by using a breakout session of zoom were used for making the virtual training more interactive.

### 2. Midwifery Faculty Development Programme:

Five Senior Instructors and two Course Coordinators participated in a virtual workshop on 'Midwifery Faculty Development Programme', organized by UNFPA Bangladesh in collaboration with the Burnet Institute, Australia. They have participated in the session 'Module 2 of the Programme: Developing Graduate Attributes' held in February and March. Through this virtual training the participants experienced innovative methodology like-self-study method as well as interactive video calls with the Trainers.
